**The One Stop Shop for Waste Management**

**SBSEnviro Aqua Concepts Pvt. Ltd.** is a Leading Technology Provider & Product Supplier for Water & Wastewater Treatment Industry. The company was established in 2006 by Mr. Srinivas Rao and Mr. Pawan Chhabra with its corporate office located at Navi Mumbai. Within a very short period of 12 months, **SBSEnviro** was able to establish its products in the Indian market and achieve 100 installations in the First Year itself, soon expanding its operations all over India, and other parts of Asia, Middle East and Africa. Since then, the company is surging ahead with the sole mission to offer Innovative, Eco Friendly and Energy Conserving technologies and products for all applications related to the treatment of wastewater.

We are committed to support our clients with Consultancy, value-added Engineering, Process Selection, Design and Technical Support, enabling us to also have remarkable Customer Relationship among Consultants, Contractors as well as Municipal bodies. We also drive our business through a blend of current market requirements & modern technical developments, thus, making us distinctive.

#### *Vision -*
